

ENCAD

T200+

**Super-fast, low-cost
CAD & graphics
printing.**

The T200+ printer incorporates Encad's best and most innovative technologies and is the only printer in its class that can print both CAD and full color photographic images. The T200+ can switch from 567 sf/hr monochrome printing to full color output at 37 sf/hr.

LESS FUSS, INCREASED PRODUCTIVITY

The compact and sleek design of the T200+ introduces a new simplicity in features and functionality. The corporate-friendly ink system uses pre-filled cartridges that easily snap-on and off for quick, clean installation. Encad's Ink Caddy™ system holds lots of ink for extended printing. And, the transparent caddies keep ink levels always visible.

THE BOTTOM LINE

New features and low cost Encad ink simplify operation and reduce operating costs. This means less downtime and a higher return on your investment. Our CIS2™ inks provide the lowest cost per plot of any printer in this category.

EXPECT MORE CAD AND FULL COLOR GRAPHICS

The versatile T200+ produces distinct line drawings in addition to brilliant color renderings. Our four-black cartridge system provides high quality drawings faster than ever. All software drivers necessary for printing from CAD and Windows applications ship with the printer. Leading the way in next-generation plotters, the T200+ is the pinnacle of speed, reliability and flexibility.

CALL TODAY

For more information on the T200+, call us today at 800-45-ENCAD or visit our website at www.encad.com.

Switches easily from four
color to four black cartridges.

MicroBurst technology provides the
fastest print speeds in four color or
best mode.

Innovative, easy to use ink system.

SPECIFICATIONS

Print Technology	On-demand thermal inkjet with Encad Microburst Technology
Ink Delivery System	30 ml foam cartridges, attachable 50 ml ink Caddy systems
Ink Compatibility	CAD Ink System 2 (CIS2) from Encad, new bond paper optimized ink set
Cartridge Warranty	Cartridges are warranted for 165 ml. The useable ink of a foam cartridge and 3 Encad Caddy systems. ¹
Cartridge Management	For maximum quality and reliability cartridges will shutoff after 350 ml of ink throughput
Media Compatibility	Compatible with KODAK Wide-Format Inkjet Media and popular CAD bond and vellum media
Media Handling	Roll feeder with media cutter and sheet feed
Print Resolution	600 x 600 dpi and 600 x 300 dpi
File Resolution	600 x 600 dpi and 300 x 300 dpi
Line Accuracy	±0.2% of specified page length* *Tested on 4ml Matte Film
Line Width	From .12 mm
Emulation	
Raster	EN RTL, HP RTL
Vector	HP-GL/2
Interfaces	100base -T Ethernet option IEEE-1284 Bi-directional ECP (Expanded Capability Port) parallel
Processor	Power PC
Buffer	128 MB standard
Power Supply	Universal 90 to 264 VAC, 43 to 67 Hz
Power Consumption	52 W typical, 100 W maximum
Noise	Standby: <52dBA Operational: <65dBA
Environment	
Operating	18° C to 29° C (65° F to 85° F) 20 to 70% RH non-condensing
Storage	5° C to 35° C (40° F to 95° F) (24 hours maximum at temperatures below 32° F and above 104° F) 5 to 80% RH non-condensing
Drivers	
AutoCAD	AutoCAD 2000, 2000i, 2002, 2004 HDI; AutoCAD LT 2000, 2000i, 2002 (untested for Windows XP); AutoCAD ADI 14 and 13
Windows	Windows 95/98/NT/2000/Me/XP
